Are you ready to make a difference?

Check out these public safety courses to see which rewarding journey you want to travel down.

Emergency Medical Responder

The primary focus of the Emergency Medical Responder is to initiate immediate lifesaving care to critical patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide lifesaving interventions while awaiting additional EMS response and to assist higher level personnel at the scene and during transport. Emergency Medical Responders function as part of a comprehensive EMS response, under medical oversight. Emergency Medical Responders perform basic interventions with minimal equipment. Successful completion of the course will enable the student to take the Pennsylvania state written and practical exams for Emergency Medical Responder. Successful performance on these exams provides the student with Pennsylvania Department of Health certification valid for 3 years.

Emergency Medical Technician

The Emergency Medical Technician provides basic emergency medical care and transportation for critical and emergent patients who access the emergency medical system. This individual possesses the basic knowledge and skills necessary to provide patient care and transportation. Emergency Medical Technicians function as part of a comprehensive EMS response, under medical oversight. Emergency Medical Technicians perform interventions with the basic equipment typically found on an ambulance. The Emergency Medical Technician is a link from the scene to the emergency health care system. Students will be required to complete 10 direct patient assessments as part of this course. Additional information may be required in order to participate in the clinical portion of the program. Successful completion of the course will enable the student to take the Pennsylvania state written and practical exams for Emergency Medical Technician. Successful performance on these exams provides the student with Pennsylvania Department of Health certification valid for 3 years.

Emergency Medical Technician - Bridge

Emergency Medical Technician Bridge provides additional information and training that builds upon the knowledge and skills obtained in First Responder. This course is intended for those individuals who want to advance their First Responder certification. Students will be required to complete 10 direct patient assessments as part of this course. Additional information may be required in order to participate in the clinical portion of the program. Successful completion of the course will enable the student to take the Pennsylvania state written and practical exams for Emergency Medical Technician. Successful performance on these exams provides the student with Pennsylvania Department of Health certification valid for 3 years.
