Dear Property Owner or Tenant:

Evaluator Services and Technologies, Inc. is under contract with Blair County, and is in the process of updating physical data for all Blair County properties for the purpose of establishing a new and equitable tax base. The data collector who visited your home does not set property values. They are trained to gather information in a prescribed format (i.e., measure structures, take photographs, and collect descriptive information). Values will be determined later by Certified Pennsylvania Evaluators.

Existing county assessment data pertaining to the exterior of all structures on your property has been reviewed and revised, as needed. Information about the interior of your home has been validated as best as possible. Please review, correct, and complete the pre-printed data below to ensure the information about the interior of your home is accurate. Then fold and mail this form to the Reassessment Office, as soon as possible, so it can be combined with the collected data. You may also review and securely comment on your parcel's information using the website, control number, and web password above.

YEAR BUILT \_\_\_\_\_ Estimated? Yes \_\_\_\_ No \_\_\_\_

YEAR OF MOST RECENT RENOVATION:

Kitchen \_\_\_\_\_ Master Bath \_\_\_\_\_ Other Bath(s) \_\_\_\_\_

Roof Cover \_\_\_\_\_ Exterior Siding \_\_\_\_\_ Windows \_\_\_\_\_
